**FOX** GAS NAILER

[www.celofixings.com](http://www.celofixings.com)

## TECHNICAL DATA FOX

Model number	: FOX 20/40
Type of tool	: Gas Nailer
Nature of Workpiece	: Normal · Hard Surface (concrete or metal)
Dimension	: 432× 130× 385 mm - 327× 130× 385 mm
Weight of tool	: 3.9 kg(8.60lb) · 3.8 kg(8.38lb)
Maximum setting per hour	: 1000 shots/hour
Drive rate	: 1-2 shots/sec
Fuel	: Propane/Butane liquified
Rated input	: 100-240 Vac, 50/60 Hz, ,
Battery capacity	: 2500 mAh
Battery voltage	: 7.2 Vdc
Maximum setting per charge	: 8000 shots/charge
Fuel cell number of shots	: 1200 shots/can
Operate temperature	: -7°(19°F)~49°(120°F)

Noise characteristic values in accordance with EN 15895 (Annex D), using the basic standards EN ISO 3744 and EN ISO 11201.

A-weighted sound pressure level at workstation, LEA	: 101.5 dB
A-weighted sound power level, LWA	: 104.1 dB
Peak C-weighted instantaneous sound pressure level at workstation	: < 130 dB
Measurement uncertainty (Standard)	: 3 dB
Vibration value according to ISO 8662-11+A1	: 2.83 m/s <sup>2</sup>
Measurement uncertainty (Standard)	: 1.37 m/s <sup>2</sup>
Fastener specifications	: Angle 0°, diameter 2.6- 3.0mm, length 15 - 38 mm and plastic collated
Actuating system (safety yoke installed)	: full sequential actuation

### Filling the magazine.

1. Load nails through the slot in the back.
2. Pull back pusher and it will catch the nails and push them forward as it returns.

### Declaration of Conformity

We

declare under our sole responsibility that the conforms with the directive and the standards
